

Emergency Preparedness Checklist - Building a 72hr Kit

– What to Include in a ‘Bug-Out’ Kit –

The checklist below is intended to be a starting point for building your own 72hr ‘Bug-Out’ kit and is not intended to be all-inclusive. You may think of additional items you want to include. We offer a separate [Home Emergency](#)

[Preparedness Checklist](#) for supplies to have-on-hand at home that you can download to assist you.

The **critical key** to any preparedness plan is to **DO IT NOW** before you need it. **Be Safe...Be Prepared!**

Be sure to keep your kit as light as possible, preferably under 25 lbs. Can be built for 1 or 2 persons (adjust supplies accordingly).

WATER

Be careful. Weight adds quickly here.

- Lifeboat water pouches--5yr SL
Recommend 12 per person
- *Personal water filtering bottle
- *Chlorine dioxide purifying tablets
- *Extra water (to carry)

FOOD

We recommend only non-thirst provoking food rations that are not affected by heat or freezing.

- 3600 calorie Mainstay, Datrex or Millennium food bars per person
- *❖Granola bars, jerky, trail mix, etc.
- *❖Freeze-dried meals
- *❖Cereals, powdered soups, powdered drink mix
(❖extra water req'd to eat/digest)
- *Plastic plate, cup & utensils
